— SPEAKER —

MR. ROGER J. HERZ

Assistant Director of Information of the Department of City Planning
Of the City of New York

ALL RESIDENTS WELCOME

There is no doubt that the face of New York is rapidly changing. It is evident in every part of the city. We take all this for granted and yet we know very little about all the plans and the efforts which must be made so that all this may be accomplished in an orderly manner.

We are therefore indeed fortunate to have for our guest speaker at our meeting, MR. ROGER J. HERZ, who is the assistant director of the Department of City Planning. Mr. Herz is a native New Yorker and attended our public and high schools. He is a graduate of Syracuse University with an A.B. Degree in Public Administration and Journalism. He has also done graduate work at Columbia University in Public Law and government. He is a member of the American Society for Public Administration, the American Political Science Association, the Sigma Delta Chi (professional

journalism fraternity), the Metropolitan Committee on Planning, the Citizens Housing and Planning Council and the Regional Plan Association.

His subject concerns all of us as residents of New York City and particularly of NOTTINGHAM PARK. Support your Association, be informed, attend the meeting, come prepared to ask questions which Mr. Herz will be glad to answer. We have much to learn about the future of our city and NOTTINGHAM PARK.

THE ANNUAL DINNER DANCE

Our annual affair which was held on June 23rd, 1960 and the Officer's Club at Fort Tilden was very well attended and everyone enjoyed the evening. The Music of Director Dave Gross's son and his band added much to the festivities. Our main objective, of course, was again achieved,—the joining of our members and friends in good fellowship.

??DID YOU KNOW???

That it is compulsory for every able bodied Russian (man, woman) to do the required daily hours of duty in civil defense?

That Russia already has the shelters that have been recommended to us?

That if an A Bomb dropped on Manhattan that Nottingham Park could survive?

That the principles of defense against nuclear warfare are not **ONLY** the Armed forces responsibility but also **YOURS?**

That there is a Report Center for Brooklyn (addressed classified) from where Fire equipment, ambulances, etc. would be dispatched for your survival?

That you are needed to help run this report center which requires only a few hours a month of your time for training purposes.

Mrs. Alice W. Jantzen, 1241 East 26th Street

THIS IS YOUR VILLAGE

Now that the excitement of the national election has ended and the people all over the nation have spoken, we must now turn our attention to the local scene. Of course, we mean "NOTTINGHAM". It is high time that all of our home owners and not just a few started thinking about our "Village". This is where our roots are, this is where some of your interests should be.

It seems strange that in a community such as ours, there appears to be lacking a community spirit except by a minority. Why? The entire community has been fortunate in the past to have been represented in local and Brooklyn Civic matters by your Nottingham Association. What do we have to do to make all of the residents conscious of our organization and of its efforts to maintain our community as one of the finest in the Borough? Must it always be a minority of you who support our efforts while the entire community benefits? Other civic associations look to our association as a model for the benefits achieved over the years. Why haven't our own people appreciated what has been done by having a full membership of all of the home owners. We want you to

1. Know us and what we stand for
2. To become active with us
3. To help keep our Association alert and vigorous

4. If you are not already a member, join now. If you are a member, get your neighbor to join.
5. Let your Directors know that they have your support in their unending efforts to keep our community as it has always been, the finest in the Borough of Brooklyn.
